To Our Valued Patients,

During this time of uncertainty, we wanted to reach out to our patients and give you an update as we all try to adjust to the COVID-19 pandemic.

We are taking extra precautions to protect our patients and staff. Everyone in our office and entering our office is required to wear a mask. Everyone arriving will be screened for a fever and asked a few questions pertaining to travel and exposure to COVID.

Each exam room will be cleaned thoroughly after every patient, as well as each piece of testing equipment.

Doctors and staff are frequently using hand sanitizer and washing their hands. Doctors and staff are also screened before beginning work.

Unfortunately, due to these intensive additional steps taken with each patient, our waiting times have increased. We sincerely apologize for these delays. We are trying to take every precaution while seeing our patients for important medical conditions.

If you would prefer to reschedule due to concerns during the pandemic, please let us know.

Hoping all are safe and healthy,

Douglas K. Devries, O.D.

Eye Care Associates of Nevada Administrator
